

VS COVID-19

The pandemic caused a lot of trouble in Europe and in the whole world. With the hope that the situation will soon return to normal, we would like to inform you that the pandemic did not have a significant impact on the success of the project and its activities. Project will be completed by the end of September 2020 as planned. In March 2020 all of the InnoWEE partners were able to meet during online 42 month General Assembly meeting to discuss work progress and plan future work considering COVID-19 situation.

InnoWEE Training Manual

Soon in the InnoWEE website the official InnoWEE Training Manual will be published. It will contain content presented during the national training workshop:

- The trainProject overview
- InnoWEE new materials and panels
- Pilot plant and up-scaled production
- Installation, monitoring and performance in real buildings
- Building Energy Modelling
- Life Cycle Assessment (LCA).

The training manuals will be available in English, Italian, Spanish, Polish, Greek, Romanian and Slovenian.

WOOL2LOOP

InnoWEE in ESOF 2020

InnoWEE in cooperation with Wool2Loop project will participate in this year's ESOF conference with a remote workshop [Transforming Construction Waste into Energy Efficiency Solutions](#), which will take place on 5th September 2020 in Virtual room 1 in time 10:15-11:30 AM CET.

InnoWEE Final Conference

The InnoWEE Project will be completed by the end of September 2020. The InnoWEE Consortium will organize the online event being the Project's Final Conference on 23rd of September 2020 at 9:30 AM CET.

On behalf of all InnoWEE Partners, we would like to cordially invite You to participate in the Final Conference. During the online event the InnoWEE Partners will present their performed work and achieved results in 4 years of the project in development of the innovative geopolymer panels for building applications.

We invite You to register free of charge to the InnoWEE Final Conference [HERE](#).

The registration is open till 20th September 2020.

You will find more information and updates about the conference and the panellists in the InnoWEE website in section Final Conference.

InnoWEE Training program is ongoing

Despite the pandemic situation, InnoWEE Partners are able to perform the planned training activities.

On 7th July 2020, TECNALIA organised a national Spanish training webinar focused on Building Energy Modelling (BEM).

On 15th July 2020, AMS and VOULA have organised a physical Greek training event in Athens. The topic was focused on the production of the geopolymer panels and implementation of the 6σ (six sigma) methodology for more efficient and reliable production process. A part of the training was a visit in the Greek Demo Site where the InnoWEE panels are installed.

The next trainings:

- Slovenia (ZAG) – 26th August 2020, Ljubljana
- Italy (CNR) – 8th September 2020, web event
- Belgium (RED) – the date and form will be announced soon.

For more information follow the [InnoWEE website](#).
